

# Generated PDF fixture

## Deterministic PDF asset for HTTP server tests

Page 1 of 3

Use this fixture for content-type, cache, range, and download checks.

Generated without external PDF dependencies.

### Fixture notes

- Header title: Generated PDF fixture
- Page count: 3
- Layout uses vector rectangles, strokes, and text blocks.
- Metadata is deterministic for reproducible output bytes.

Path suggestion: /test-document.pdf

Script: scripts/generate\_test\_pdf.py

# Generated PDF fixture

## Deterministic PDF asset for HTTP server tests

Page 2 of 3

Use this fixture for content-type, cache, range, and download checks.

Generated without external PDF dependencies.
